science in the river city

SUMMER SCHOOL

for teachers

About

Join us for four half-days of online professional learning for science teachers focused on **sense-making, environmental literacy, social and emotional learning, racial literacy, and planning for fall**. SIRC Summer School will combine our most relevant SIRC workshops from this year with several new ones to prepare for the upcoming school year. All workshop instructors are experienced Sacramento Area Science Project teacher leaders.

Key Info

 June 14-17, 2021

 Online via Zoom

 All K-12 teachers!
